

Nidderdale

Children's Day Nursery

Julie Shaw
Proprietor

The provider and manager value the staff team and have high expectations for all children who attend. They regularly observe staff's practice and encourage them to access professional development opportunities. (Ofsted 2019)

Staff are welcoming, friendly and well qualified. They provide a nurturing, caring environment for children to grow and develop in. Children have close bonds with the manager and staff team. They show that they feel happy, safe and secure in the nursery. (Ofsted 2019)

Performance Charter

Our commitment to children, parents and carers

- To ensure a safe and healthy environment where children enjoy and thrive
- To establish and maintain good relationships with parents, children and carers
- To understand and respect the diverse needs of each individual child and their family
- To provide and support well trained, motivated and enthusiastic staff
- To value shared information and encourage involvement and feedback from parents

- To ensure that all children are happy and well cared for
- To provide opportunities for children to freely explore their world, enjoy, learn and develop safely
- To build confidence and self-esteem to ensure children achieve their full potential and build strong foundations they can take through life
- Plan – View – Review

Environment

Staff know children very well and carefully prepare for their progression through different rooms and stages in the nursery. Staff consistently support children's speech development and emotional well-being. Children's behaviour is consistently good throughout the nursery. (Ofsted 2019)

Over the years, you will see your child develop from a baby into a confident pre-schooler. They will master lots of physical and cognitive skills as well as growing up as part of a loving, caring, sharing group. This is achieved through curiosity, asking questions and trying things out as they explore the world around them.

Your child will enjoy a welcoming, vibrant and stimulating environment at this nursery where individual needs are recognised and nurtured. We are committed to promoting equality and celebrating diversity, supporting all children and families to participate in a healthy state of mind and body.

The idyllic countryside environment is conducive to learning safely, encouraging children to be independent, confident and ready to fulfil their individual interests and developmental needs

We place great emphasis on your child's personal, social and emotional development. By the time your child reaches pre-school, they will be an increasingly independent person with their own positive personality and high self esteem. Within this well supported environment, we feel it is also beneficial to demonstrate to each child, the value of taking turns, sharing, being part of a group and caring for each other.

All our childcare and development is monitored, reflected and evaluated to ensure continuous improvement. This is underpinned by strong partnerships with parents, the local community and other settings your child may attend or will move on to, in order to provide continuity for them.

Staff

Our practitioners working with your child are carefully chosen to ensure that they are able to develop positive, lasting relationships that children will remember. Your child will have a Key Person who will work closely with your family to ensure they know your child well and understand their needs, giving them a sense of belonging. They will build a familiar, affectionate and trusting relationship you can rely upon – but at the same time, be good role models for fun, friendship, caring, education and positive behaviour!

Rigorous interviewing and safeguarding checks are in place to ensure enthusiastic, committed and dedicated staff provide the highest standards of care and learning.

All staff are either qualified or working towards childcare qualifications on site through an external training provider. Julie Shaw (Nursery Proprietor) has a BA Hons in Childhood Studies and Early Years Professional Status and Hannah Richardson (Nursery Manager) has a BA Hons in Young Children's Learning and Development as well as staff qualified from level 2 to 6. We encourage and support staff on-going training, in house and through NYES, but as a minimum all staff will undertake:

- Child protection / Safeguarding training
- Paediatric first aid training
- Prevent Duty

The arrangements for safeguarding are effective. The provider has robust procedures to recruit new members of staff and apprentices. The manager completes thorough inductions and ensures staff are aware of child protection procedures. Staff have an awareness of wider child protection issues and know who to contact if they are concerned about a child or staff's practice (Ofsted 2019)

Rooms/Outdoors

Our purpose built nursery is spacious, light and airy, set in a peaceful, rural setting, allowing your child to actively enjoy indoor and outdoor activities all year round. There are 5 stages from babies through to pre-school children and each stage offers your child well-equipped facilities to encourage enjoyable experiences and challenges, both indoors and out.

Stage 1 Baby room has its own spacious outdoor decking area attached to the room which enables your baby to explore new toys and interact with other children/adults or sleep in the fresh air outdoors in a secure environment. Indoors there is a milk kitchen, sleep room, changing room area and a dining/playroom to support their learning experiences. We strive to work closely alongside parents to ensure we are following your routines for feeding/sleeping patterns and any other special requirements you and your baby may have, to help them to settle in quickly.

Staff who work with babies have a good understanding of their individual needs and routines. Room leaders support the team well by sharing their knowledge and ensuring that babies' care needs are met swiftly. This has a positive impact on their emotional well-being and they are happy and content. (Ofsted 2019)

Babies are supported to develop their communication skills as they explore musical instruments and participate in song time. (Ofsted 2019)

Stage 2 has a lovely big room with messy play room, changing room, eating area and space for imaginative, constructive, musical and physical play. They also have their own outdoor play area which allows your toddler the freedom to explore in the safety of their own garden, while still allowing them to see their older friends in the bigger play area.

Stage 3 is another large airy ground floor room with messy area, eating area and junior toilets for those children beginning toilet training. As your child continues to explore and develop their all-round abilities in different areas of learning, there are a wide variety of toys and resources to stimulate and support them. The room is close to the large outdoor garden area which provides safe enclosed grass and tarmac areas. With large windows overlooking the garden, the children can watch the rabbits and birds from their room.

Young children thoroughly enjoy being outdoors with staff. Staff are highly responsive to their needs and follow their lead effectively. (Ofsted 2019)

Stage 4 has a large friendly room on the first floor which is fully equipped for the transition between toddler and Pre-Schooler. Aside from the main room, they have a creative den situated in the eaves of the building. Your child is free to choose from the wide range of easily accessible toys and resources which help develop, stimulate and support them as they become increasingly independent. They can experience activities such as imaginary play, baking, creative and physical play, music and movement. All of this is, of course, in a comfortable, relaxed, child friendly environment.

Stage 5 is the Pre-school section which is split between 2 rooms. Your child will have a choice of activities in both rooms, based on their interests. Free flow play is encouraged within the two playrooms so that your child can make their own choice and extend and develop from planned activities. There are opportunities to be creative, use ICT, sand and water, construction toys, imaginative and musical play. The children are supported in choosing and self-serving breakfast, snacks and lunch to encourage independence and prepare them for school. There is also the opportunity to explore in the large garden which your child can access each day as they continue their exciting play and learning.

Sunshine Room

Pre-School Rainbow Room / Dining Room

Staff who work with older children inspire them to enjoy stories and develop their language and literacy skills. Children listen intently and staff provide challenge by asking their understanding of words, such as 'enormous' and 'magnificent'. Children have an extensive vocabulary and enjoy sharing examples of what they know with the group. (Ofsted 2019)

Staff help older children to be well prepared for starting school. Toddlers begin to focus on early writing skills to build the foundations they need for the next stage in the nursery.

The manager has developed secure partnerships with parents and other professionals involved with children, such as speech and language therapists. This has helped the staff team to support children with special educational needs and/or disabilities exceptionally well. (Ofsted 2019)

Food – Healthy lifestyle – Chef

A healthy lifestyle is firmly established within the nursery, which involves teaching your child about self-care, making informed decisions and understanding the fundamentals to managing their own health. Our vision of this is to positively promote exercise through physical play as well as great care being taken by our in-house Chef to provide nutritious, well balanced meals each day. Your child will be offered breakfast (depending on the time of your arrival) a choice of healthy mid morning snacks, milk or water and a hot two course meal at midday. Tea is served from 4 pm onwards and water is available at all times throughout the day. Babies' meals are adapted and individual diets are catered for. Our menus are seasonal and copies of daily menus are displayed for parents to see. We are committed to helping to combat tooth decay in all children so this means that our meals, snacks and drinks are carefully chosen to ensure that they do not contain hidden sugar (where possible) Home cooked desserts are served to your child amongst other options, however, fruit is always available as another healthy option. Wholemeal flour, brown rice and wholemeal pasta is used when possible.

The Early Years Foundation Stage – Principles into Practice

“A well balanced Early Years Foundation Stage framework ensures that all the areas of learning and development are incorporated based on the 4 themes. These four **Themes** express important **Principles** underpinning effective practice in the care, development and learning of young children. Each **Principle** is supported by four **Commitments** which describe how the Principle can be put into practice. The four Principles are:

Unique Child – Every child is a competent learner from birth who can be resilient, capable, confident and self assured.

Positive Relationships – Children learn to be strong and independent from a base of loving and secure relationships with parents and/or a key person.

Enabling Environments – The environment plays a key role in supporting and extending children's development and learning

Learning and Development – Children develop and learn in different ways and at different rates and all areas of Learning and Development are equally important and inter-connected.”(Early Years Foundation Stage framework - Principles into Practice)

Together we would like to ensure your child is supported to reach their full potential – indoors and outdoors. Putting all of the above principles into practice

Each stage of your child's development is recorded and used to plan for their next steps. Photographs and observations are recorded on Tapestry which is an online learning journal which helps nurseries and parents record, track and celebrate children's progress in their Early Years education. On Track assessments will be available for you to pass on to school. This link with the school also helps to effect a smooth transition for your child from Pre-school.

Settling In

How can we work together to help your child with settling in and transitions?

It is our aim to ensure all children are given the opportunity to settle into Kids at Heart in their own time to accommodate for their individual needs. We work in partnership with parents and carers to encourage a positive start in this new environment.

Approximately one month before your child starts nursery, arrangements will be made for some free settling in sessions so that your child can familiarise him/herself with the nursery, the staff and the children.

The amount of introductory sessions needed will differ to accommodate the individual needs to the child and cater for parents attachment needs.

During the first few settling in sessions, parents / carers may stay until their child feels settled and are comfortable leaving.

Upon starting nursery, your child will be allocated a key person with whom they will form a strong bond / attachment and this will help them feel safe and secure while at nursery.

The Role of a Key Person

Children need to build strong relationships with their carers, this allows them to feel secure, explore their environment and take risks with confidence knowing that a trusted adult is nearby to support their learning, present new challenges in a safe environment, and offer praise and encouragement which will build confidence and self esteem.

A Key Person is chosen to both match your child's attendance pattern to provide continuity of care and development but is also dependant on a natural bond that your child develops with a particular member of staff. They will be very interested in your child's likes / dislikes, routines and family life so that they can plan learning opportunities to cater for his / her individual needs and then add photographs, observations and personal achievements into his / her online Learning Journal.

What is Tapestry?

Tapestry is an easy-to-use online learning journal which helps nurseries and parents to record, track and celebrate children's progress in their early years education.

Our nursery is fun packed with many different educational play activities from mud kitchens, willow dens, story sacks to creative work. Each child will have their own unique online learning journal within this software package, allowing us to capture and share these experiences as well as monitor development and learning.

This software package is a safe and secure application with its own web address specifically for Nidderdale Children's Day Nursery.

Unique access codes for each individual child will be provided to allow you to view your child's progress online as it is recorded.

This will allow you to view photos and observations, as well as comment and give personal feedback on your child's development and activities throughout the day, helping to build on the home/nursery link.

The children concentrate on the Prime and Specific areas of the EYFS (Early Years Foundation Stage Framework) and are observed on the Characteristics of Effective Learning, which shows how a child engages with other people and their environment.

Parents are keen to share feedback for the nursery's inspection. They are very complimentary about the manager and staff team. For example, they say the manager and staff team are 'always available', 'helpful' and 'go the extra mile'. (Ofsted 2019)

It's always sad when the time comes to say goodbye to children as they leave to go to school – but we consider it a privilege to be part of their early years, to see them develop and grow into great little people. We hope they will come back to see us to say hello and let us know how they're doing. Please feel free to do the same – visitors always welcome!

Thank you for taking the time to read about our nursery. We hope to welcome you and your family to visit us soon.

Julie Shaw
General Manager

Frequently asked questions:

How long has Kids at Heart been established?

Nidderdale Nursery has been operating since 1994, although we had this nursery purpose-built nursery in 2004. We have The School House Nursery in Pannal which has been operating since 1995 . We also have Woodlands Kids' Club in Harrogate which opened in the same year.

Are you Ofsted registered and what does this mean?

All our settings are registered separately as required by Ofsted. The purpose of the Ofsted inspection is to identify strengths and weaknesses so that we, as providers, can improve the quality of educational provision and help children achieve the Early Learning Goals for children's learning on entering compulsory education. It is also to assure parents and the public that the nursery education funded by the Government is of an acceptable quality.

Do you accept government funding for 2, 3 and 4 year old children?

We accept funded 2 year old children providing they meet the criteria and are in receipt of a 'Golden Ticket' .This offers a maximum of 15 hours of weekly universal funded entitlement (depending on availability) this is applied term time only.

For eligible 3 and 4 year old children, we offer 15 universal hours per week with up to an additional 15 hours of extended entitlement per week (where eligible) This funding is applicable the term after their 3rd birthday, (depending on availability). These entitlements applied term time only as we do not currently offer a stretched entitlement, however we are able to make your monthly payments equal each month (per term) by spreading your payments (as an agreed amount) to allow flexibility of budgeting throughout the year. If you were to leave, increase or decrease your sessions within any term, the fees would be pro-rata'd and re-calculated. This allows the flexibility of changes to your sessions if required.

Children must be in attendance at the point of 'Headcount Week' to ensure we can claim a funded entitlement for that term. The dates vary throughout the year and we will inform you of this when you apply for a place with a funded entitlement. Fees are payable in advance on 1st of each month for all children, including those with a funded entitlement. The funded entitlement hours are 'free' however parents are asked to pay for all additional services that are not covered by the funded entitlement. Please ask us for more details on how we calculate our pricing structure for this.

What times do sessions run?

Nidderdale Children's Day Nursery is open from 7.00 am to 6pm with sessions running up to, or from, 1.00 pm.

Is the nursery open throughout the year?

The nursery is open 51 weeks of the year. We are closed for the week between Xmas and New Year, Public Holidays and weekends

Can I book extra sessions if I need more care?

Yes, we will do our best to provide extra sessions, subject to availability

How many children and carers are in each room?

Each room is different and following Ofsted guidelines, the numbers of children are determined by the floor space and the age of the children. The number of carers will be determined by the amount and age of children. Our minimum staff:child ratios requirements are as follows:

0-2 years 1:3

2-3 years 1:4

3-5 years 1:8

Where there are children with additional needs, staff to child ratios will be increased to appropriately meet the particular needs of these children. In calculating ratios of staff to children, students on placement will not be counted although they may be involved as occasional helpers within the group as part of their training.

Will my child have the same Nursery Practitioners each session?

Each room has a team of Practitioners working together with a Room Head. The teams are carefully put together to ensure a diverse range of qualifications, experience and personalities. Key Persons within the team are appropriately matched to the children with regard to days they both attend

How are staff selected/screened/trained?

Rigorous interviewing and robust safeguarding checks made through the Disclosure Barring Service (DBS) are carried out for each new member of staff. Julie Shaw, Hannah Richardson, Marie Smith (Deputy Manager) and Jo Hammond (Head Office HR Co-Ordinator and Administrator) have all completed a course in 'Safer Recruitment' to ensure measures are met relating to child protection and the screening at recruitment and job offer stage. All staff are qualified or working towards a childcare qualification as well as on-going internal and external short courses. All staff work under the guidelines of written policies and procedures to ensure consistency, high quality and safety standards. Policies and Procedure manuals are available for inspection in reception at any time. Our policies and procedures are reviewed annually and are updated more regularly if required. Staff are given such policies on a monthly basis to ensure they are kept up to date with any changes.

Are all staff qualified and/or experienced?

All staff are qualified, or working towards a qualification, in childcare. Staff are also trained in Child Protection, Paediatric First Aid and Prevent as a minimum. We strongly encourage and support all staff training and have staff trained from NVQ/Diploma level 2 in Early Years Childcare and Education, up to post graduate Early Years Professional status.

Do you update me on my child's progress?

Observations and assessments are carried out on your child on a regular basis to ensure that they are working towards, meeting or exceeding the Early Learning Goals. These observations provide the next steps in our planning for your child's development. Our online learning journal (Tapestry) enables us to track and celebrate children's progress in their Early Years education. Parents are also able to view, like and comment on observations as they are added to their individual online child's journal.

How often do the children go outside?

Every day – whenever possible. We believe strongly in a healthy lifestyle which includes fresh air and exercise, and that includes babies through to Pre-School. We ask you to bring wellies, warm waterproof coats, hats and gloves – although we also have a selection of waterproofs, wellies and sun hats available. Curiosity is a key disposition for learning that we want to foster in young children. Within our secure garden environment, curious children, from a very early age, explore the world around them through touching, smelling, listening and looking. Through asking questions and trying things out, children make sense their world and develop their skills as independent learners. We aim to provide them with opportunities to find out about themselves, significant people in their lives, their immediate environment and the natural and man-made world.

What's included in the fees?

Nursery care, breakfast (depending on the time of arrival) meals (2-course hot lunch and tea) and snacks and drinks.

For children with a funded entitlement, additional services such as non funded hours, all meals, snacks, drinks, admin, baby wipes, forest school type activities, waterproofs, wellies, baking equipment, ingredients etc (this is not an exhaustive list) are a chargeable cost, however this will never exceed the cost of our daily session rate that we charge for non funded children.

What else do I need to bring?

You will need to provide nappies and formula milk (where applicable) Please also ensure your child has an appropriate coat. We provide spare clothes, wellies and sun hats, however, if you would prefer to use your own, please feel free to bring those too.

Do the children come in for an introductory session before they start?

The Room Head will contact you to arrange introductory sessions before your child's start date. This will give you and your child the opportunity to come into the nursery before your start date to familiarise yourselves with the Practitioners and the new environment and it will also allow you to sit down with your child's Key Person to go through to share information about your child's developmental stage, routine, personality, likes, dislikes, allergies, medication etc. that may require a care plan.

What happens if my child needs to sleep during the day?

Each room has sleeping arrangements and we will follow your routine as closely as possible. The babies and younger children have sleeping areas within their rooms, the older children join the toddlers in their quiet room for a chance to recharge their batteries.

What's the menu like?

The menus are carefully drawn up to ensure nutritious, well balanced meals which the children will enjoy. The menus are seasonal to ensure as much fresh produce as possible. Babies' meals are adapted from the main menu and individual diets are catered for wherever possible. We want to help to combat tooth decay in all children and endeavour to avoid hidden sugars in food and drinks where possible. Although we have delicious home cooked desserts as a treat, there is always yoghurt and fruit healthy options available.

Help with fees?

Many families are entitled to help with nursery fees. For more information, contact Childcare Choices or Family Information Services. You may be entitled to access help with childcare costs through Employer Supported Childcare, Childcare Vouchers, Tax Credits or Universal Credit, all of which we are registered with. Tax Free Childcare is open to all qualifying parents. Visit Childcare Choices for more information. This is a scheme whereby you can get up to £500 every 3 months (up to £2000 a year) for each of your children to help with the costs of childcare. This goes up to £1000 every 3 months if a child is disabled (up to £4000 a year) If you get Tax-Free childcare, you'll set up an online childcare account for your child. For every £8 you pay into this account, the government will pay in £2 to use to pay your provider. You can get Tax-Free childcare at the same time as 30 hours funded entitlement if you're eligible for both. We accept 2 year old funded entitlement and offer up to 30 hours funded extended entitlement for 3 and 4 year olds, (providing the criteria is met and a nursery space is available) Please ask for more details. We also offer 10% sibling discount when 3 full days or more are booked for each child (this does not apply when your child gets a funded entitlement)

How do I know what my child has been doing?

Children who attend Stage 1, 2, 3 and 4 will be given a written daily report sheet detailing sleep, feed times and nappy changes (where applicable) ; verbal communication will be given for Stage 5 (Pre-School children). Staff from your child's room will be available at the beginning and end of each session to tell you about your child's day. Our online learning journal (Tapestry) is available to view via an app and is available for parents to look at, at any time.

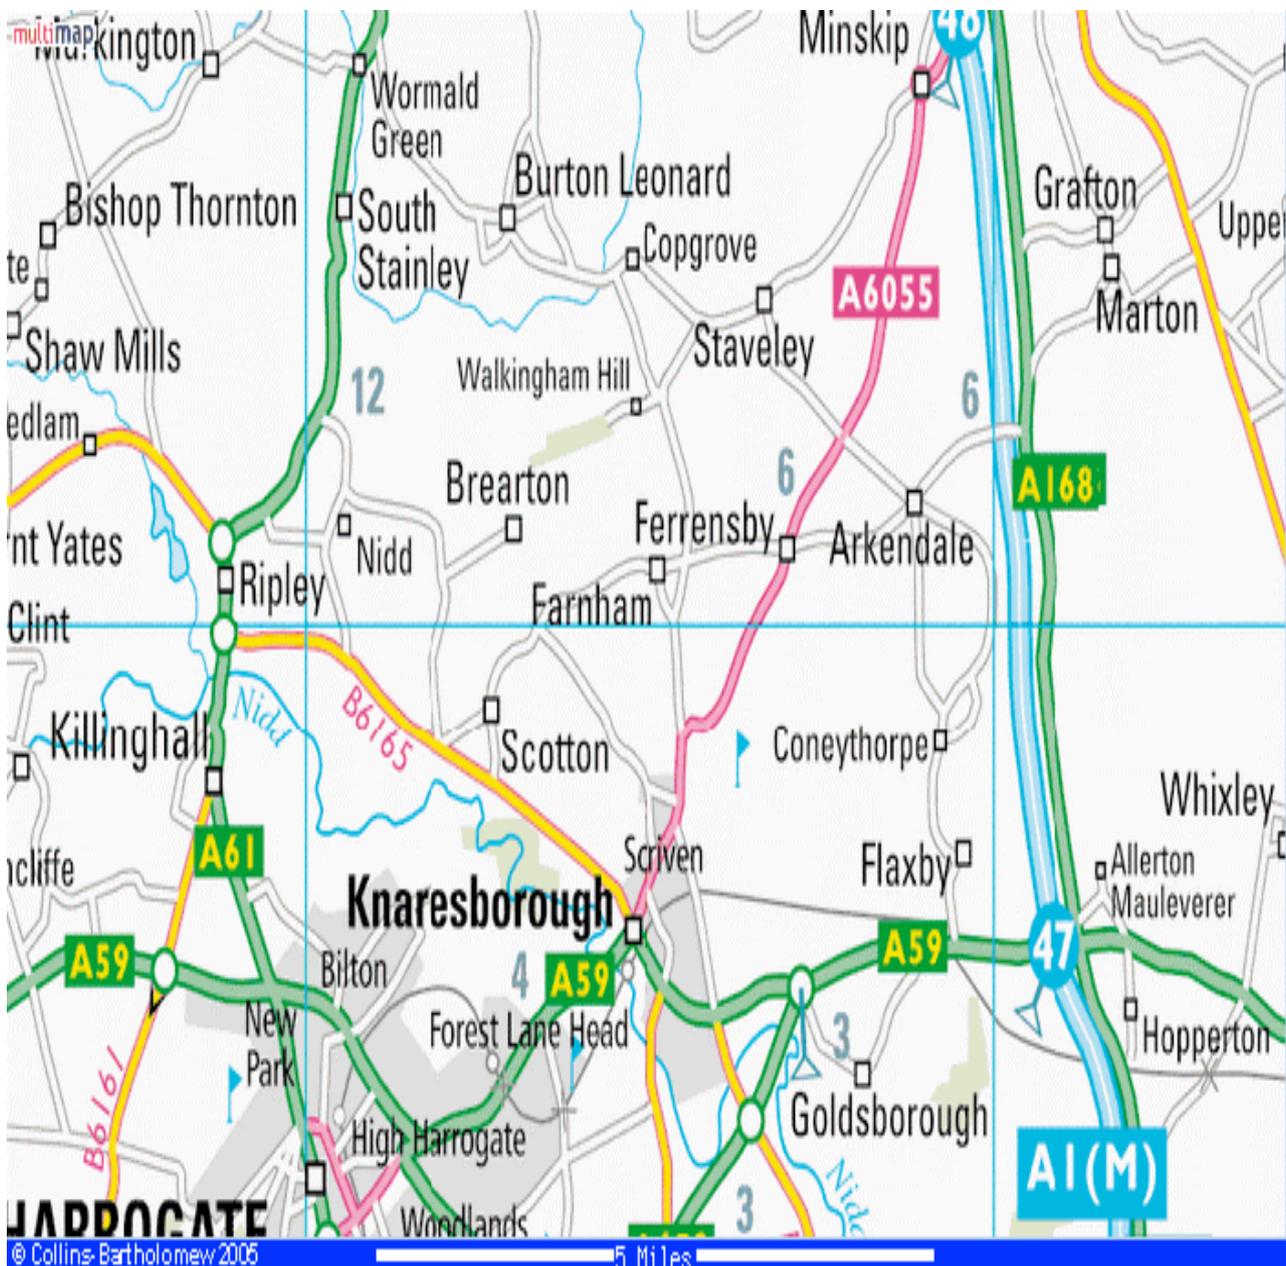

Monthly newsletters and regular emails are communicated, giving details of what's happening in nursery and what's coming up. These are also available to collect from nursery if you would like a paper copy. Parents' Evening is held each year to enable you to discuss your child's progress with their Room Head or Key Person. However, senior staff are available on a daily basis, or an appointment can be made for a more comprehensive discussion.

We believe that an open access policy is the best way of encouraging participation with parents. Parents are welcome to view the policies and procedures file at any time. They are also welcome to see the records kept on their child, but as this would require withdrawing a member of staff from their usual duties, arrangements should be made in advance to ensure staff availability. We welcome the opportunity to share your child's learning with you.

Date

What's Next?

Step 1

Complete a Nursery Application Form, giving your child's details and preferred sessions and return to us.

Step 2

We will contact you to confirm whether your preferred sessions are available or to discuss any alternative sessions.

Step 3

We will post out a Childcare Agreement and Conditions of Placement form and an Admission form, along with details of the amount for your first full months fees to be paid to secure the place. Once the forms have been signed and returned along with the fees paid, your nursery place is then confirmed.

All starter paperwork must be returned before your child's first settling in session.
